

**NUTREND®**

# THE POWER OF NUTRITION

product catalogue

We had a dream. To stand by the side of the best world athletes on their journey to success. Premium technologies, international certification, and independent laboratories proving the quality of our products have always been our priority. Olympic winners, world champions, and best individuals within their categories have been writing the history with us for already more than quarter of a century. As well as emotions in faces of millions of you who overcome their limits all over the world. Every day.

Your stories are what drives us forwards.

  
**our story**

# about us

We are a Czech producer of sports nutrition for the whole world. We control the full production process thanks to our own laboratories and research centres. From mixing the branded ingredients together to the final design of the product. All under one roof. Since 2011, we have been utilizing our own exceptionally quality water source from 170-meter-deep artesian well in the foothills of Nízké Jesníky mountain range. In 2018, we opened NUTREND WORLD, a complex with a unique

design that combines fitness centre, wellness, luxury hotel, and a restaurant with a stylish café. Conference halls are available for corporate clients with variable options of settings. In the beginning of 2020, we finished construction of another production hall and warehouse with area over 12 000 m<sup>2</sup> that helps us implement the latest production technologies and increase capacity.

**30** more than  
30 years of  
experience

 all at one  
location

 ISO certified  
(9001, 22000)

 more than  
33 000 m<sup>2</sup>  
area

 branded  
ingredients

 export to over  
60 countries  
worldwide

Our production halls rank among the most complex facilities of its kind in the world and thanks to the investments in the latest technologies we are capable to secure production processes of wide range of products under one roof.

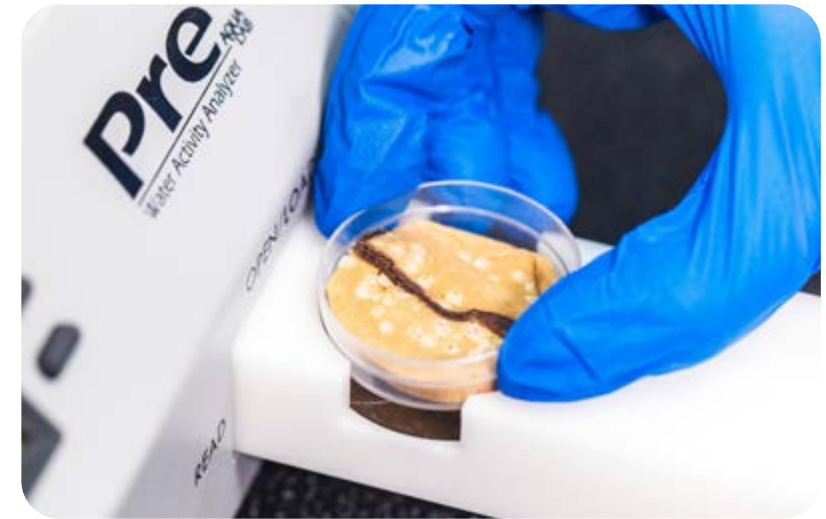

- production of bars
- production of liquids
- production of gels
- production of powders
- production of capsules and tabs

Our warehouse with capacity over 5 000 pallets is fully automatized and uses on-line readers and wrapping robots.

  
**tech  
nologies**

Thanks to ALL IN-HOUSE solution we are very flexible during product development and we are practically capable to deliver tailor-made products to the world top athletes. The development process does not include only nutritionists and sports medicals, but standardly also the best sportsmen from all sports areas. High quality and conformity of our products are tested in independent laboratories in the United Kingdom and in Germany.

# research and develop ment

ISO 9001:2015 certification system management is a guarantee of high quality of our products and services. The certification was granted by an internationally recognized society Bohemia Certification.

We own the prestigious ISO certificate and we are very proud that our company NUTREND D.S., a.s. received a prestigious certificate FSSC22000 (Food Safety System Certification 22000). It is a complex norm focused on foods safety management system. The system is based on HACCP principals, including Codex Alimentarius and requirements of the norm ISO 22000:2018. The certificate is a guarantee of identification and risk management within a company regarding food safety.

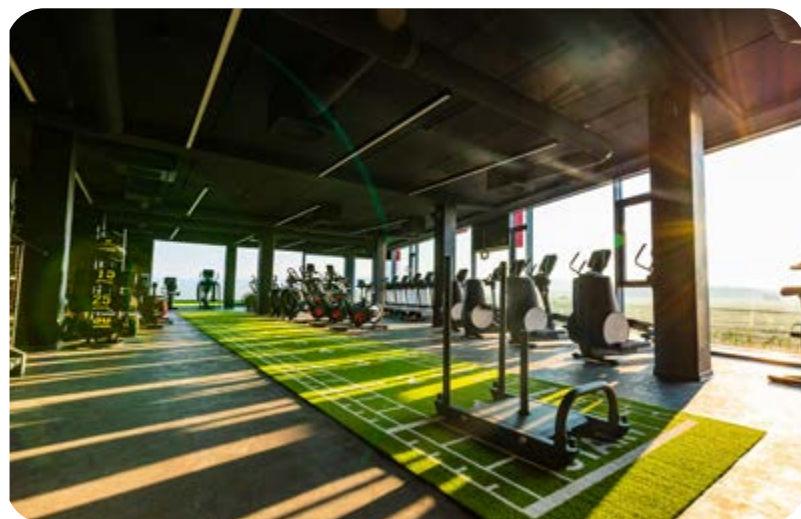

The environment has always been a priority of NUTREND. That is why we joined many years ago a non-profit system EKO-KOM that secures sorting and recycling of packaging wastes in the Czech Republic.

**quality**

We have been continuously building a net of our own branded stores that keeps spreading every year. NUTREND stores with their modern design fit within the concept and style of the whole company. Premium products and expert consultancy are the alpha and omega of our branded stores that you can find in every bigger town or city all over the Czech Republic.

# NUTREND Stores

A unique multifunctional complex that was created for lovers of sports, healthy lifestyle, and well-being in all forms. The whole complex is located in a calm outskirts area of the city overlooking Svatý Kopeček, a pilgrimage church on a hill. It represents four stories of modern style with distinctive design elements that give the whole place its own face. Guests may accommodate in one of our 24 unique rooms. The restaurant with “open kitchen” concept offers specialities from premium ingredients all day. You can also enjoy yourself in our café, where you can have a coffee and taste heavenly homemade cakes and desserts.

# NUTREND World

The fitness centre with area over 1 000 m<sup>2</sup> is equipped with the latest machines and offers limitless workout options. The visitors may also enjoy wide range of massages and private Wellness SPA rooms. The top floor of the complex hides a spacious modern congress centre with a show kitchen and a terrace.

## BRANDED INGREDIENTS

BioPerine® is a standardized black pepper fruit extract (Piper nigrum). A natural theronutrient and biological improver.

Carnipure™ is a high-quality branded L-carnitine. L-carnitine secures transfer of long-chain fatty acids containing carbon through the cell membrane into the mitochondria.

Vinitrox™ is a unique synergistic combination of bioactive substances called polyphenols. The extracts come from apples and grapes. Vinitrox™ is used for physical performance support.

Creapure® is a premium 100 % pure creatine granting maximum safety and functionality.

Biologically highly available form of vitamin K with positive effects on health of bones and cardiovascular system.

Naticol® are fish collagen peptides with a low molecular weight for improved absorption in organism.

Kre-Alkalyn® is a modern patented form of creatine that is superior for its high stability in the digestive tract.

DigeZyme™ is an innovative mixture of digestive enzymes for improved nutrient processing. This fully complex mixture is created by alpha-amylase, protease, lactase, lipase, and cellulase.

A special variety of corn with a high content of resistant starch – amylose. It is a significant element in slowing down the process of digestion and thanks to the contained fibre it is highly beneficial for digestive tract..

A unique chelate form of zinc bound to L-methionine amino acids. This form shows improved absorption of minerals.

One of the best hydrolysed whey isolates in the market. It is superior for its biological value thanks to the high content of essential amino acids.

GarCitrin® is a highly active combination of hydroxycitric acid (HCA) and garcinol. It has an effect on suppressing synthesis of fatty acids, cholesterol, and fats.

An acid form of lactase that breaks down lactose even at low pH 3,5 – 5,5. It is effective even in the acid stomach environment.

A unique green coffee extract that increases efficiency of lipolytic activities in fat cells.

A unique mixture of complex carbohydrates that ensures modulated absorption and gradual usability.

## BRANDED INGREDIENTS

Palatinose™ is a unique low glycaemic carbohydrate of new generation with an energy potential of glucose.

PeptoPro® are high quality di- and tripeptide hydrolysed casein fractions. They are superior for their quick and easy digestibility and neutral taste.

LactoWise® is a premium mixture of active substances that positively affects digestive tract, strengthens the intestinal microflora, stimulates mobility of the digestive tract, and supports resistance of the immune system. It improves easy and efficient digestion

Special cellulose capsules DRcaps® that are resistant to the acid environment in the stomach ensure both release and efficient usability of the active substance in a suitable part of the digestive tract.

HydroBeef™ - a high quality beef protein hydrolysate.

Branded brown seaweed extract containing polyphenols that decrease functions of digestive enzymes lipase and amylase.

KSM-66 Ashwagandha is a branded full-spectrum extract with the highest concentration out of all main root extracts available in the current market.

Aquamin Mg – biologically highly available source of magnesium sourced from seawater.

## PRODUCT LOGOS

GLUTEN FREE is a logo showing that the product is free from gluten.

NARTES® is a premium quality spring water that comes from a 170-meter-deep artesian underground source. The spring is located in virgin nature of the foothills in Nížké Jeseníky mountain range.

Whey is sourced from cow's milk whose nutriment consists of minimum 90 % fresh grass and who move and graze freely in open pastures.

# 100% WHEY PROTEIN

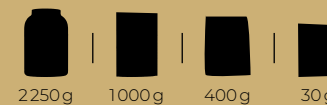

## 100% WHEY PROTEIN

We are introducing a whole new product generation with an elevated formula and increased ratio of WPI. The contained whey protein comes from top-quality milk from ecological farms from cows freely grazing on meadows meeting the standards of GRASSFED certification. Excellent digestibility is provided by branded mixture of digestive enzymes; and the delicious flavours will please your senses. This premium product with high biological value is ideal for muscle tissue recovery and growth.

- up to 76 % protein
- instant whey protein (WPC, WPI)
- used ingredients meet the GRASS FED certification requirements
- up to 24 % WPI
- up to 23 g protein per serving
- 5 g BCAA per serving
- branded mixture of digestive enzymes DigeZyme™
- free from artificial dyes
- gluten-free

## MICELLAR CASEIN

Quality milk protein isolate with a high content of casein ensuring long-lasting absorption. Ideal mainly in the evening or at any daytime during weight-loss regime. Naturally low in sugar, high in calcium and above that – enriched with special complex of probiotics and prebiotics.

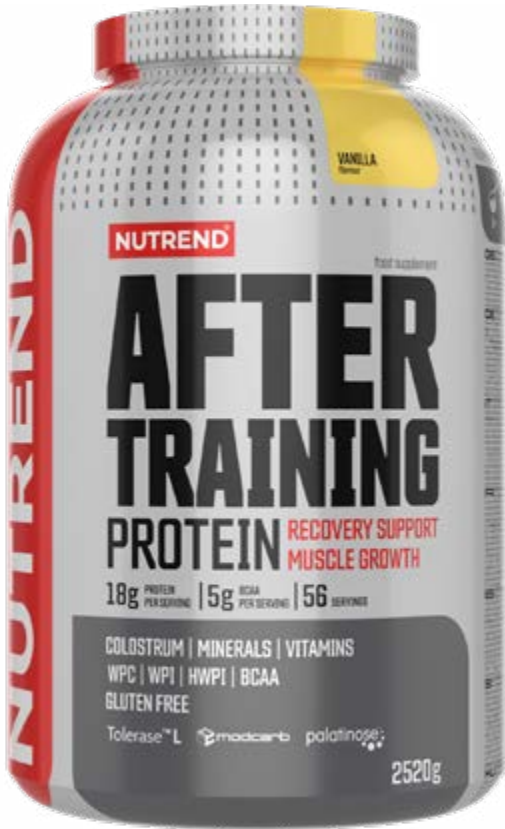

- up to 77 % protein
- up to 35 g protein per serving
- 7,8 g BCAA per serving
- branded probiotic and prebiotic complex LactoWise™
- 1 350 000 000 cfu Bacillus coagulans per serving
- free from artificial dyes

## AFTER TRAINING PROTEIN

A unique mixture of premium proteins and quality carbohydrates formulated especially for muscle growth and regeneration after an intense workout. Excellent for quick absorbability and high efficiency.

- 41 % protein
- branded hydrolysed whey protein isolate Hydrovon™
- premium whey isolate (WPI)
- premium ultra-filtered milk protein concentrate (WPC)
- 19 g protein per serving
- 5 g BCAA per serving
- mixture of carbohydrates Palatinose™ and ModCarb™
- L-alanine
- L-glutamine
- digestive enzyme Tolerase™ L
- bioactive colostrum
- ginkgo biloba extract
- magnesium
- zinc
- vitamins B5, B6, B12

PROTEIN PUDDING

PROTEIN PUDDING is a tasty snack with a high ratio of protein that supports growth and maintenance of muscle mass, and benefits our bones. It can be a part of regular weight-loss regime or ketogenic diet. It is suitable for sportsmen's diet who need to supplement protein or for anyone who wants to diversify their regular healthy lifestyle diet. This delicious pudding cream also works as a substitute of a dessert – guilt-free.

- tasty protein snack
- 27 g protein per serving
- free from added sugar
- free from artificial dyes
- enriched with digestive enzymes DigeZyme™
- delicious flavour
- ready in 2 minutes
- only add water and mix in a shaker

PROTEIN PANCAKE

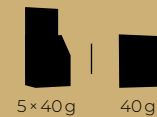

Instant mixture for easy preparation of delicious protein crepes, pancakes, or waffles. Contains quality milk protein, and mixture of rice and buckwheat flours; does not contain added sugar, any gluten, preservatives, or dyes. Easy preparation of perfect snack loaded with protein.

- 31 % protein
- high content of quality protein (MPI and WPC)
- no need to add flavouring
- free from added sugar

**AMINO ACIDS**

CITRULLINE MALATE

Preworkout that will prepare your muscles for a real performance. Citrulline malate is a unique combination of the amino acid L-citrulline with malic acid in a 2:1 ratio. L-citrulline is one of the non-essential amino acids. It is also a part of a biochemical process that helps our body to get rid of ammoniac (the by-product of protein breakdown). It is useful for both endurance sportsmen and strength athletes for maximum effective workout with a boosted feeling that, apart from other benefits, supports supply of nutrients to the muscle.

- 100% Citrulline malate
- 3 000 mg Citrulline malate per serving
- for both intense and strength workouts
- powder form with perfect solubility
- gluten-free
- sugar-free
- free from preservatives and artificial colours

ACTIVE SUBSTANCES	
	3g
L-citrulline DL-malate	3 000 mg
of which L-citrulline	2 000 mg

300g

Food supplement

BCAA 2:1:1 POWDER

Flavourful instant mixture of three essential BCAAs in ratio 2:1:1 enriched with glutamine, zinc, and B-group vitamins. Its formula was developed especially for support of protein synthesis, improvement of energy metabolism, support of immunity, and delay of fatigue.

- 6 000 mg BCAA per serving
- amino acid ratio 2:1:1
- vitamins B1, B3, B6
- zinc
- L-glutamine
- instant mixture
- sugar-free

BCAA LIQUID

Essential BCAAs in crystalline form enriched with vitamin B6 that helps reducing fatigue and exhaustion levels. Regarding absorbability, liquid form is the quickest amino acid intake option. This product is popular for support of sports performance and maintenance of muscle mass.

- free crystalline form of amino acids
- high BCAA content per product (80 000 mg/l)
- quick absorbability
- liquid form
- vitamin B6
- sugar-free

ORANGE

BCAA LIQUID SHOT

Practical single-use shot with a high content of essential BCAAs. Liquid free crystalline form of BCAAs ensures quick absorbability. Sufficient intake of quality proteins with optimal amino acid spectrum contributes to muscle growth.

- amino acid ratio 2:1:1
- free crystalline form of amino acids
- 3 000 mg BCAA per shot
- quick effectiveness and absorbability
- practical single-use shots
- sugar-free
- flavour-free

# GLUTAMINE

Instant form of pure L-glutamine. L-glutamine is one of the most common amino acids in skeletal muscles. Intake of quality proteins with optimal amino acid spectrum contributes to muscle growth, especially after intense physical activities.

- 5 000 mg L-glutamine per serving
- instant form
- sugar-free
- flavour-free
- up to 100 servings

ACTIVE SUBSTANCES	
	5g
L-glutamine	5g

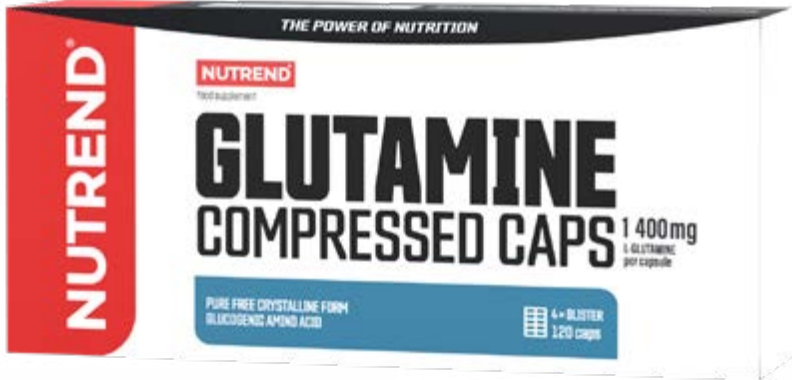

Food supplement

# GLUTAMINE COMPRESSED CAPS

Pure crystalline form of L-glutamine in practical capsules. L-glutamine is one of the most abundant amino acids in skeletal muscles. It is popular for amino acid supplementation for muscle mass growth and its protection.

- 1 400 mg L-glutamine per capsule
- pure crystalline form
- easily absorbable capsules
- up to 40 servings

ACTIVE SUBSTANCES	
	3 caps
L-glutamine	4 200 mg

Food supplement

# EAA MEGA STRONG POWDER

## EAA MEGA STRONG POWDER

Instant mixture of nine essential amino acids enriched with vitamins, zinc, and green tea extract, especially formulated for muscle growth, performance improvement, and delay of tiredness. One serving contains 8 g of essential amino acids in optimal ratio.

- 8 000 mg EAA per serving
- vitamins B5, B6, B12
- vitamin D
- zinc
- green tea extract
- instant mixture
- free from artificial dyes
- sugar-free

ACTIVE SUBSTANCES

# AAKG 7500

Practical single shot of amino acid L-arginine combined with alpha-ketoglutarate. This product is popular mainly for the synthesis of nitrous oxide (NO) associated with improved vasodilatation – more effective delivery of oxygen and nutrients to the muscles. The liquid form ensures quick absorbability.

- 7 500 mg AAKG per monodose
- easily absorbable form
- practical packaging in monodoses

ACTIVE SUBSTANCES	
	25 ml
L-arginine-alpha-ketoglutarate	7500 mg

Food supplement

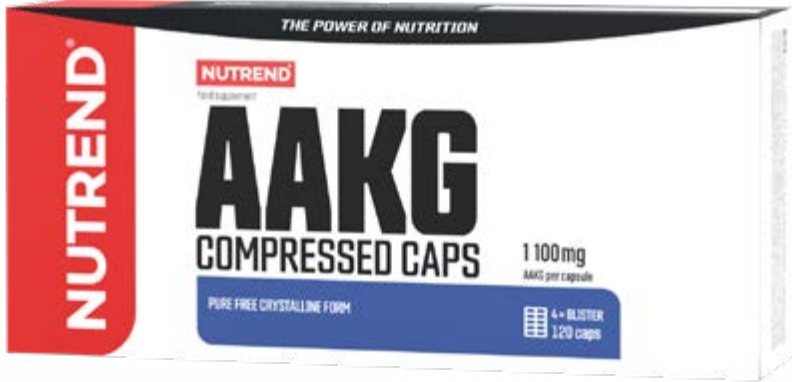

BLACKCURRANT

# AAKG COMPRESSED CAPS

Practical portable capsules containing amino acid L-arginine and alpha-ketoglutarate. This product is popular for nitric oxide (NO) synthesis associated with improved vasodilatation and more efficient supplementation of muscles with oxygen and nutrients.

- 1 100 mg AAKG per capsule
- easily absorbable capsules
- up to 120 servings

ACTIVE SUBSTANCES	
	2 caps
L-arginine-alpha-ketoglutarate	2 200 mg

Food supplement

ARGININE

Amino acid L-arginine has the highest content of nitrogen out of all amino acid spectrum, and it is a significant element of muscle protein. Suitable protein intake ensures regeneration and growth of skeletal muscles, assuming maintenance of nitrogen balance.

- 500 mg L-arginine per capsule
- pure crystalline form
- easily absorbable capsules
- up to 60 servings

ACTIVE SUBSTANCES	
	4 caps
L-arginine	2000 mg

120 caps

Food supplement

ARGININE MAX CAPS

L-arginine is an amino acid that contains the most nitrogen out of all amino acid spectrum and it is also a significant component of muscle proteins. If the nitrogen balance is maintained, then suitable protein intake ensures regeneration and growth of skeletal muscles.

- 1000 mg L-arginine per capsule
- pure crystalline form
- up to 45 servings
- easily absorbable capsules

ACTIVE SUBSTANCES	
	3 caps
L-arginine	3000 mg

90 caps

Food supplement

TYROSINE

L-tyrosine is a non-essential amino acid popular for regeneration support during physical activities and for positive impact on metabolism.

- 500 mg tyrosine per capsule
- pure crystalline form
- easily absorbable capsules
- up to 60 servings

ACTIVE SUBSTANCES	
	4 caps
L-tyrosine	2 000 mg

  
120 caps  
Food supplement

TAURINE

Taurine is an organic compound naturally occurring mainly in animal proteins.

- 1 000 mg taurine per capsule
- pure crystalline form
- easily absorbable capsules
- up to 120 servings

ACTIVE SUBSTANCES	
	2 caps
Taurine	2 000 mg

  
120 caps  
Food supplement

# BETA-ALANINE COMPRESSED CAPS

## BETA-ALANINE COMPRESSED CAPS

Combination of amino acids beta-alanine and L-histidine enriched with vitamins B5 and B6. This product is popular for reduction of fatigue and exhaustion and for support of normal energy metabolism.

- 1 150 mg beta-alanine per capsule
- L-histidine
- vitamin B6
- vitamin B5
- easily absorbable capsules
- up to 45 servings

ACTIVE SUBSTANCES	
	4 caps
Beta-alanine	4 600 mg
L-histidine	400 mg
Pantothenic acid	40 mg
Vitamin B6	10 mg

90 caps

Food supplement

A high-angle, blue-tinted photograph of a man in a gym. He is shirtless, muscular, and has a beard. He is holding a large mallet and is in the process of hitting a large, dark, round medicine ball. The floor is made of dark tiles, and there is a white mat on the floor. The lighting is dramatic, with strong shadows.

N1 SHOT

Premium stimulant for maximum muscle pump effect and intense boost before workout. Practical single-use shot with an immediate effect contains a unique combination of active substances, brings a long-term stimulation effect during the whole duration of an intense physical activity, and is rightly one of the best-sellers in its category.

- 2 500 mg beta-alanine
- 2 000 mg L-arginine
- 1 000 mg taurine
- 500 mg glucuronolactone
- 500 mg Guarana extract
- 250 mg green tea extract
- 200 mg choline
- 200 mg caffeine
- practical single-use shot

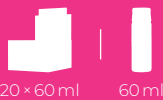

PUMP SHOT

Unique caffeine-free pre-workout in a practical single shot. Thanks to vitamin B6 and choline it supports energy metabolism and metabolism of fats. During workout, your hard-working muscles utilize the most benefits from the contained amino acids. Gotu kola extract ensures focus on performance and brings overall good feeling. PUMP SHOT is an ideal support for functional workouts that might take place in the evening or night.

- 2 500 mg beta-alanine
- 1 000 mg L-arginine
- 2 000 mg L-citrulline malate
- 300 mg choline
- Gotu kola extract
- vitamin B6
- sugar-free
- caffeine-free
- practical shot
- well absorbable liquid form
